

Darwin Day

Human Evolution

Entomophagy And Locomotion

2017 Schedule of Events at UW-Madison

Monday, February 13

2:30 – 4:30 pm, Tree of Life Activity, Discovery Building Town Center

Experience an array of evolution-themed exploration stations in conjunction with the WID Afterschool Expeditions program. Drop-ins and families welcome!

4:30 – 5:30 pm, Reception, Discovery Building Town Center

6:00 – 7:00 pm, Keynote Presentation, Discovery Building, H.F. Deluca Forum
“Entomophagy and Evolution: Eating Insects, Past, Present and Future”, Dr. Julie Lesnik (Wayne State University)

Wednesday, February 15

7:00 – 8:15 pm, Weds Night @ the Lab, Rm 1111 Genetics/Biotech Center

“Evolution of Insects as Food, From Hominids to the United Nations”, Dr. Julie Lesnik (Wayne State University)

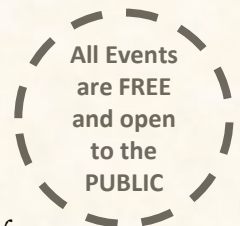

Thursday, February 16

Noon – 1:00 pm, Evolution Seminar Series, Room 1111 Genetics/Biotech Center

“The role of female pelvic width on walking economy and speed: Benefits with Few Tradeoffs”, Dr. Cara Wall-Scheffler (Seattle Pacific University)

More information on events, maps and parking available at: evolution.wisc.edu

Hosted by the J.F. Crow Institute for the Study of Evolution and Co-sponsored by the Departments of Anthropology and Entomology with the generous support of the University Lectures Committee and other contributors. See the full list at evolution.wisc.edu.
